

A New Generation of Arduous Environment Headset/Handset Phones for Ships, Machinery Rooms, Railways, Tunnels etc

This, the newest revision of our **ARNYSTEEL 240** Series of Telephones which are suitable for **airports, tunnels, power stations, railways, roads, ships, public buildings, escalators, quarries and hostile environments.**

The **ARNYSTEEL 240** is one of a range of specialised telephones and is manufactured by Arnesys to exacting standards.

THEY FEATURE:

- * Weatherproof and extremely rugged construction
- * Safety due to their non-metallic case & handset
- * Corrosion resistance
- * Solid State Electronics throughout
- * Highly reliable operation & low cost of ownership
- * Many options to suit your exact requirements

FEATURES:

The **ARNYSTEEL 240** features

- an attractive yellow enclosure, which can be wall/post or desk mounted
- non-mechanical detection of the presence of the handset in its stowage
- a very low Total Cost of Ownership with a high MTBF, low MTTR due to its extremely rugged construction, advanced concepts and reliable components
- the ability to add a variety of beacons or hooters
- electrical connections which may be brought in through a standard gland

OPTIONS:

The ARNYSTEL 240 can offer a variety of Hooters/Sounders and beacons for extra noisy environments
The ARNYSTEL 240 can have polyurethane curly cord to the handset.
The ARNYSTEL 240 can have a Logo to customer specifications
The ARNYSTEL 240 can be supplied in other attractive colours (consult factory)
