

# Arnystel 200

(revised 2006 Model)

**The New Generation of Arduous Environment Phones for Roads,  
Railways, Tunnels etc**

This, the newest revision of our **ARNYSTEEL 200** Series of Telephones which are suitable for **airports, tunnels, power stations, railways, roads, ships, public buildings, elevators & escalators, automatic barriers, quarries and hostile environments.**

The **ARNYSTEEL 200** is one of a range of specialised telephones and is manufactured by Arnesys to exacting standards.

## **THEY FEATURE:**

- \* Weatherproof and extremely rugged construction
- \* Safety due to their non-metallic case & handset
- \* Corrosion resistance
- \* Solid State Electronics throughout
- \* Highly reliable operation & low cost of ownership
- \* Many options to suit your exact requirements

## **FEATURES:**

The **ARNYSTEEL 200** features

- an attractive yellow enclosure, which can be wall/post or desk mounted
- non-mechanical detection of the presence of the handset in its stowage
- a very low Total Cost of Ownership with a high MTBF, low MTTR due to its extremely rugged construction, advanced concepts and reliable components
- the ability to add a variety of beacons or hooters
- electrical connections which may be brought in through a standard gland

## OPTIONS:

- The ARNYSTEL 200 can have a Headset instead of a Handset for extra noisy environments
- The ARNYSTEL 200 can offer a variety of Hooters/Sounders and beacons for extra noisy environments
- The ARNYSTEL 200 can have polyurethane curly cord to the handset.
- The ARNYSTEL 200 can have a Logo to customer specifications
- The ARNYSTEL 200 can be supplied in other attractive colours (consult factory)
